ACCEPTANCE

E-Alternative Solutions, LLC Attention: D. Christopher Howard, Vice President, General Counsel and Chief Compliance Officer 459 E. 16th Street Jacksonville, Florida 32206

FDA Submission Tracking Numbers (STNs): Multiple STNs, see Appendix A

Dear Mr. Howard:

We accept your PMTAs¹ for the tobacco products identified in Appendix A.

Your PMTAs will move forward in the review process. FDA may request to conduct inspections, which may include manufacturing inspections and clinical and nonclinical research inspections, to verify the information submitted in your PMTAs. The results of these inspections may also be used to verify the information submitted in any additional applications that reference the same manufacturing and research information. To ensure that the appropriate records and personnel will be available during the inspections, FDA will notify the point(s) of contact identified prior to the inspection start date.

We will notify you if samples are required for independent testing and verification. If samples are required, you will be notified in a Samples Request letter which will include both the numbers of samples required and the laboratory address where samples must be received. Upon receipt of a Samples Request letter, you will be required to have the laboratory listed in the letter receive all samples listed within 14 calendar days of the request. In general, for ENDS testing we may request a minimum of 35 device starter kits^[1] for each tobacco product as well as 2 x 50 mL bottles of the selected e-liquid (note: if the tobacco product is a closed ENDS tobacco product, samples collected prior to product fill are preferred. Where this is not possible, a sufficient number of product/cartridges necessary to provide an equivalent volume of e-liquid may be requested).

¹ Premarket Tobacco Product Applications (PMTAs) submitted under section 910 of the Federal Food, Drug, and Cosmetic Act (FD&C Act)

^[1] Starter kits are described as the ENDs device, charging cable, and cartridge/pods, as appropriate

If you have any questions, please contact Megan Nguyen, Regulatory Health Project Manager, at (301) 796 -7826 or Megan.Nguyen@fda.hhs.gov.
